Corner Edge products provide maximum protection for your goods, your business and your piece of mind. Our innovative edge protection solutions safeguard your valued items during shipping, handling and storage.

Corner Edge Products has been a Leader in the Edge Protection and Reinforcement Markets for over 15 years. Our focus is on high quality manufacturing, environmental responsibility and "superior customer service" which has earned us a solid track record of Quality and Reliability.

We manufacture the "strongest most durable edge board" in North America. We use only the finest "certified" food grade, allergen and hazardous material free paper by purchasing "prime recycled paper board". Our "unique" high performance glues and "flood coating process" ensure maximum protection far beyond the competition.

Corner Edge Products saves our customers tens of thousands of dollars on product packaging and waste disposal by reducing the carton ECT and pallet wrap. More importantly, we save our clients money by reducing or eliminating their damage claims and returns.

Our practical, Cost-Effective Packaging Solutions combined with our Project Management Assistance will ensure that your product arrives at its destination in perfect condition.

Clients

- Market Leading Consumer Brands •
- Industrial Manufacturers •
- Produce Growers •

Corner Edge Advantage:

- Increase Product Integrity
- Increase Product Protection
- Reduce Packaging Cost
- Reduce Pallet Wrap
- Reduce damage claims
- Reduce stress on environment
- Reduce Corrugated Strength Test
- Reduce space requirement

Environment Commitment

Corner Edge incorporates environmental sensitivity into the design of our products and our daily operations.

PROTECT-O-GUARD

"PROTECT-O-GUARD" provides endless packaging applications for various industries. Our "SUPERIOR" rigid laminated chipboard product reinforces and reduces your packaging costs while protecting your valued products during transport and handling.

PROTECTO-O-GUARD'S 90-degree angle construction provides dependable edge protection, load containment, stabilization, weight distribution and stackability. This combined with reduced carton ECT, shrink wrap and strapping will not only protect products from damages but will save on overall costs including disposal.

EDGE PROTECTION

- Furniture & Appliances
- Windows, Doors & Blinds
- Kitchen Manufacturers
- Wood Flooring
- Metal Industry
- Glass Manufacturers

CONTAINMENT

- Displays
- Food Products
- Fruit & Vegetables
- Bottled Products

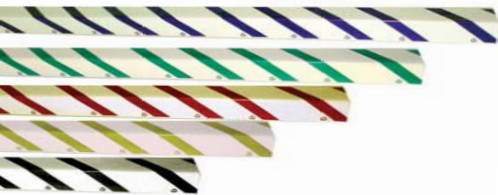

STACKING

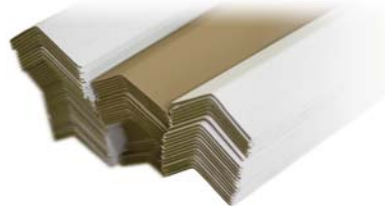

- Warehouse - *Space savings*
- Transportation - *Save on damage claims*
- Package Integrity - *Minimize returns*

WRAP-O-GUARD

Flexible Edge Protectors are used on non-linear surfaces such as drums, coils and rolls. Our die-cut chipboard protectors are perfect for all material which needs protection against roll edge damage.

STRAP-O-GUARD

Our laminated chipboard Strap Protectors are typically used underneath steel or plastic strapping. These rigid protectors allow tension to be placed on products while preventing straps from cutting into the packaging or product surface.

TIER SHEETS / FIBRE PADS

Tier Sheet/Fibre Pad Product Separators increase durability during handling and distribution. These recycled fibre sheets are stronger and more cost effective than corrugated pads. They are also available in various sizes.

ADVANTAGES:

- Product separation on skids (Tier Sheets)
- Pallet protection (Fibre Pads)
- Product dividers in cartons
- Picturing backing boards
- Furniture protection
- Travel bag stiffeners

SLIP SHEETS / PUSH & PULL SHEETS

Slip sheets or Push/Pull sheets are a cost saving alternative to pallets.

ADVANTAGES:

- No maintenance or repair
- Reduce material handling cost
- Better use of shipping container volume
- Reusable and recyclable
- Eliminate skid storage & Disposal
- Available in various sizes and thicknesses

FLATS

Flats are designed primarily for automatic strapping systems

Fibre Edge Protectors/Flats safeguard your lumber by forming a 90 degree corner around your load.
